

# Etactics

## Developer

---

### We're Hiring!

We are looking for a highly motivated individual to work with our development team. The ideal candidate will be responsible for supporting the existing infrastructure as well as developing new technologies.

The developer supports our web based portal and other software as a service solutions and applications. The ideal candidate will be asked to act as a subject matter expert in the discovery and investigation of critical production problems as they arise and develop detailed programming logic to resolve the same and/or enhance our offerings.

This ideal candidate will provide technical consulting to management and our user community while working closely with other developers on the team.

---
